

## Blue Diamond Backlit Wall Switches

### Backlit Durable Push Pad Guides Pedestrians to the Automatic Door Activation Point

Available in a stainless steel finish, the attractive Blue Diamond is engineered for both indoor and outdoor environments

- **Guides Pedestrians to the Door Entry:**  
Illuminated switch that guides pedestrian to the door activation point even in poorly lit environments
- **Save Energy**  
Blue Diamond illuminated switches allow hall way lighting to be dimmed in hospital and office building type environments at night whilst still directing pedestrians to the door activation point
- **Attractive and Durable:**  
Aesthetically pleasing with blue LED backlighting, pleasing architects and building owners alike
- **Available in a Range of Sizes**
  - 6" (152mm) Square
  - 4" (101mm) Square
  - 4.5" (115mm) Round
